EXAMINER'S COMMENT

1. Applicants' remarks and amendments, filed on September 08, 2004, have been carefully considered. Claims 1, 7, & 17 have been amended. New claim 20 has been added. The amendment has been entered.

Claims 1-20 are now pending in this application.

2. Applicants' urging regarding the US Pat. 6,627,571 B1 is noted. The argument is found persuasive, thus the Obviousness-type Double Patenting rejection over this reference has been withdrawn.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or fairly suggest a method for forming an array of supported catalyst materials requiring the claimed process steps.

Particularly, the requirement of step (a) distinguishes over the art.

There is no motivation to combine the teachings of the references together.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
